LAMINATE FURNITURE and Architectural Millwork

KEWAUNEE[®]

Laminate Products

Kewaunee Scientific Corporation

Setting the standard for quality furniture, workstations, fume hoods, and project performance since 1906.

Every Kewaunee project begins with a partnership. Whether you're an architect, a facility manager or designer, or an end user, we offer a team of professionals who will help you create the environment that best meets your needs.

You'll work with experienced sales representatives who form a nationwide network of consultants. They are backed by over 500 trained and experienced employees dedicated to the principles of innovative design, superior quality and continuing service.

At Kewaunee, our Associates recognize that our job is not complete until our customer is satisfied. Our project management concept includes the integration of manufacturing requirements, design/engineering and a construction schedule to assure on-time delivery and completion of installations that will provide excellent function and longevity.

History

In 1906, a handful of investors with a vision hired 18 workers and formed what is today the Kewaunee Scientific Corporation. Their goal was ambitious: build a superior line of furniture and accessories.

Until the early 1900's, America relied on Europe, and particularly Germany, for the bulk of its laboratory equipment. But after World War I the American scientific industry began to gain ground. At Kewaunee, we grew rapidly. We expanded our market with an elaborate dealer organization. By the end of the 1920's, we were building both steel and wood laboratory furniture and accessories.

During World War II, we were a government contractor for the Air Corps, and an important supplier for the Manhattan Project.

After the war, America experienced a technological explosion resulting in increased demand for scientific

laboratory equipment. Kewaunee responded by building its present facilities in Statesville, North Carolina and its staff of experienced people.

A lot has changed in 100 years but not the original goal: to build a superior line of furniture to meet the needs of all markets, the best that can be built.

Experience

Many years of experience have qualified Kewaunee as a leader in the design and manufacture of laboratory, technical, and laminate furniture. We serve clients from many disciplines in industry, research, education, government, and healthcare.

From original designs and layouts through complete installations, Kewaunee has the experience to make your facility the best that it can be.

Facilities

The Company's corporate headquarters are located in Statesville, North Carolina along with three manufacturing facilities producing laboratory, technical, and laminate furniture for the domestic and international markets. Laboratory furniture products include: both steel and wood cabinetry, fume hoods, adaptable modular systems, moveable workstations, environmentally friendly casework, biological safety cabinets, and epoxy resin counters and sinks. Technical furniture products include: column systems, slotted-post systems, pedestal systems, and stand-alone benches. Laminate furniture and architectural millwork includes: laminate casework, systems, and related products for educational, healthcare and industrial applications. Our manufacturing facility in Bangalore, India serves local and Asian markets. The Company also has subsidiaries in Singapore, China, and India.

Kewaunee Quality Construction

SPEKTRUM LAMINATE FURNITURE

is engineered and fabricated to exacting specifications. From raw material to finished products, our quality assurance program is designed to certify that Kewaunee products exceed established industry standards.

CABINET FACE STYLES

- Reveal Overlay — 10mm reveals — 5-knuckle hinge only
- Full Overlay — 3mm reveals — 5-knuckle or concealed hinge

CHOICE OF CORE MATERIALS

Solid, 19mm (3/4") thick, top, bottom and end panels joined with multiple dowel and glue construction to provide complete case rigidity. Core material options include:

- Particleboard
- Plywood
- MDF
- FSC® Certified
- NAUF
- Moisture Resistant

COLOR OPTIONS

Spektrum cabinets are available in all the laminate offerings from Formica® and Wilsonart®. Most colors are available with matching edge banding. Standard interior colors are: White, Beige, and Grey.

MULTIPLE EDGE BANDING OPTIONS

Front exposed edges of cabinets are faced with PVC edge banding in one of four standard colors or to match cabinet body laminate. Edge banding is available in two thickness options:

- 1.0 millimeter banding
- 3.0 millimeter banding

FULL DEPTH SHELVES WITH BANDING OPTIONS

Solid 19mm (3/4") thick shelves, are surfaced on both sides by thermally fused melamine to match the cabinet interior. Fully adjustable on 32mm centers secured with corrosion-resistant, twin pin clips to prevent accidental shelf movement. Three banding options and two thickness options:

- banded front edge only
- banded front and back edge
- banded all four edges
- 1.0 millimeter banding
- 3.0 millimeter banding

DRAWER CONSTRUCTION

13mm (1/2") drawer sides, back, and inside front, joined with multiple dowel and glue construction. 13mm (1/2") bottom captured on all four sides. Drawer parts are surfaced on both sides by thermally fused melamine to match the cabinet interior.

DRAWER SUSPENSION

- 3/4-extension, epoxy-coated, self-closing drawer slide load rated at 100lbs.
- Full-extension, ball bearing drawer slide load rated at 100lbs.
- Full-extension, ball bearing drawer slide load rated at 150lbs. (150lb, full-extension slides used on all file drawers and paper storage drawers)

DOOR HINGES

- Institutional-type, five-knuckle, offset, steel hinge, offered in five finishes, load rated at 150lbs.
- Concealed, self-closing 110° swing
- Concealed, self-closing 165° swing

DRAWER & DOOR PULLS

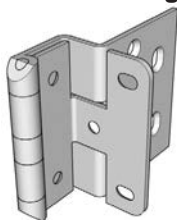

- D-shaped 8mm diameter wire pull available in seven standard finishes

OTHER HARDWARE OPTIONS

- Disc tumbler locks
- Pin tumbler locks
- Label holders

		27"
		30"
		33"
		36"

Base cabinet with one stack of four drawers. The top two drawers are always 4u high, with three larger drawers below.

Drawer Heights (units): 4,4,6,6 (30"H), 4,4,7,7 (32.5"H), 4,4,8,8 (35"H).

- available Cabinet Widths
- available Cabinet Depths
- available Cabinet Heights

(30" = Sitting Height 32.5" = ADA Height 35" = Standing Height)

Drawer Sizes

Drawer sizes are based on a 32mm design which provides a maximum amount of flexibility while also ensuring that adjacent cabinets can have drawers that are the same height.

For this reason, drawer heights are referred to in "units". The smallest drawers are 4 units high, while large file drawers are 10 units high.

The example below explains how these sizes are communicated throughout the catalog.

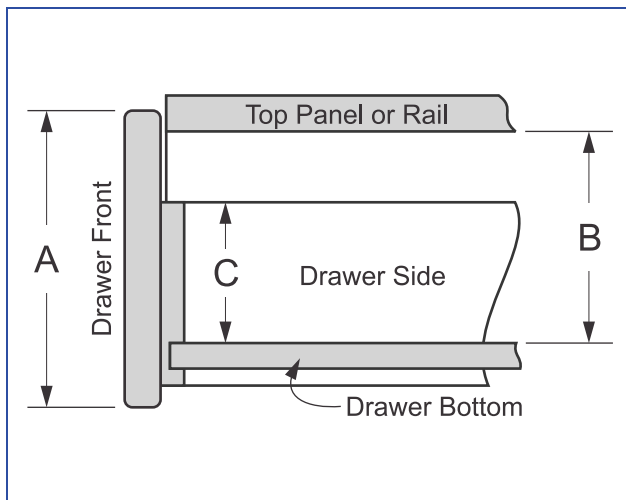

EXAMPLE:

The **30" high cabinet** has two drawers 4 units high and two drawers 6 units high.

The **32.5" high cabinet** has two drawers 4 units high and two drawers 7 units high.

The **35" high cabinet** has two drawers 4 units high and two drawers 8 units high.

Wall cabinet with double pocket doors. The 18" and 24" have one adjustable shelf; the 30" and 36" have two.

Tall Cabinet Construction Detail

19mm end panel

machined on 32mm system for dowels, hinges, and adjustable shelf. Banded on front with 1mm or 3mm PVC edge banding

19mm Wall Nailers

doweled to both end panels.

19mm Full Cabinet Top

doweled to both end panels

13mm Back Panel

fully captured by top, bottom, and end panels

19mm Fixed Center Shelf

doweled into both end panels

19mm Adjustable Shelves

supported by Polycarbonate Shelf Clips

19mm Cabinet Bottom

doweled into both end panels

19mm Doors

3mm PVC banded on all four edges

Multiple Hinge Options

- 5-knuckle Institutional
- 110° Concealed
- 165° Concealed

Multiple Pull Options

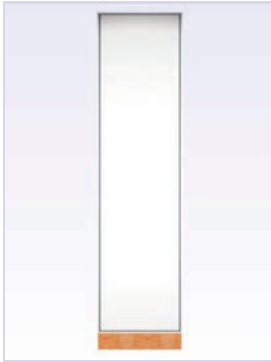

- 96mm D-shaped Wire
- Semi-recessed Poly

Plywood Base

fastened to cabinet bottom

Wall mounted countertop support with 1" contoured panel and top and back mounting cleats.

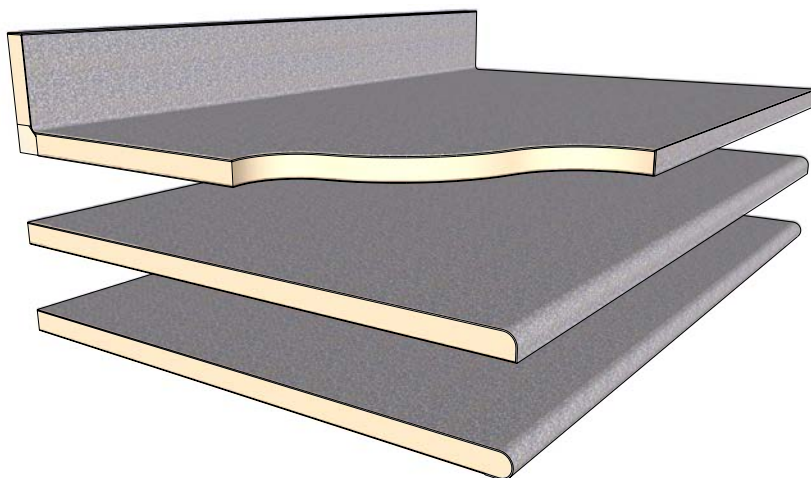

Work Tops

Work Top material selections are among the most critical of the furniture decisions. The intended applications for your work tops dictate material choice. Surfaces

could be exposed to reagents and caustic substances. Heavy equipment may need to be supported or only light duty tasks may be performed.

Kewaunee can recommend and furnish materials fabricated to your individual needs, complete with appropriate sinks, drains and accessories.

High Pressure Laminate Work Tops

Appearance: Hard smooth surface.

Available Colors: Available in all Formica® and Wilsonart® colors, patterns, and textures

Composition: High pressure laminate surface attached to solid particleboard, plywood, or MDF substrate using water resistant adhesive

Physical Properties: Excellent all around cost effective work surface. Good: scratch, heat, and moisture resistance. Chemical resistant colors are available.

Applications: Recommended for light to medium duty purposes.

Other Work Top Materials

MATERIAL	APPEARANCE	COMPOSITION	PHYSICAL PROPERTIES	APPLICATIONS
KEMRESIN®	Ultra-smooth, non-porous surface Available colors: Grey, Slate, Putty, and Black	1" thick molded epoxy resin	Excellent resistance to practically all acids, alkalis, and solvents. Highly resistant to heat and normal physical abuse.	Use wherever optimum physical and chemical resisting properties are required.
HARDWOOD: OAK or MAPLE	Natural varnish, or penetrating oil finish	Solid edge grain Maple or Oak strips, glued together electronically, and finished with baked-on clear synthetic varnish or penetrating oil.	Warm appearance. Poor heat and scratch resistance but surface is renewable.	Excellent top material for Physics tables, Electronic benches, and other tables where mechanical or physical work levels are prevalent.
COMPOSITE RESIN	Hard, smooth non-glare surface	Cellulose fiber reinforced phenolic resin core with a polyurethane copolymer surface. Available in multiple colors and patterns.	Good chemical resistance to wide range of acids, alkalis and solvents.	Use wherever a high degree of chemical resistance is required.
STAINLESS STEEL	No. 4 Finish	Type 304 furnished as standard, but other types are available when specified. Type 316 supplied for Perchloric Acid fume hoods.	Excellent heat, stain, and scratch resistance. Can be sterilized.	Recommended for food preparation and sterile medical applications.

Work Tops

Specifications:

The configurations shown are for Kewaunee laminate base cabinets. Standard top thickness is 1", standard curb height is 4".

To order, select configuration and top material desired. Specify number of linear or square feet per product.

Dimensions are nominal. Not all configurations are available in all materials. Indented tops available on special order for some materials.

Wall Shelving Assemblies

Specifications:

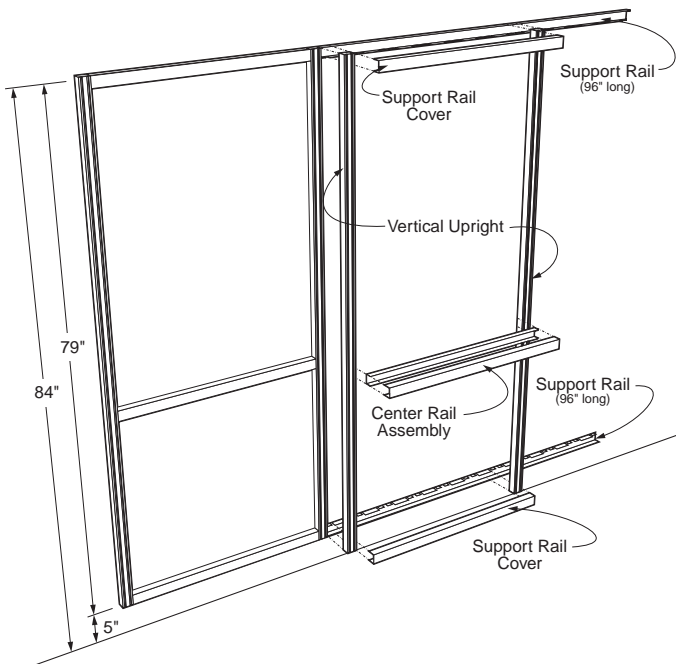

Vertical Uprights are 1 1/4" deep and either 79" or 42" high. They are manufactured with a double-slotted face with slots on 1" centers. They are designed to be mounted between two Support Rails to hold accurate spacing.

Support Rails are available in 8 foot lengths and may be cut to the required length. Support Rails are notched on 6" centers to accept the Vertical Uprights.

Support Rail Covers are required to finish the assembly and must be ordered in pairs to match the Vertical Upright spacing.

Optional Center Rails may be ordered to provide a horizontal member at counter top height. They should be sized to match the Vertical Upright spacing.

Wall Shelving Assemblies

Specifications:

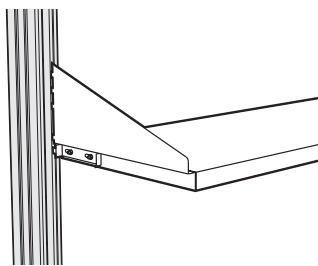

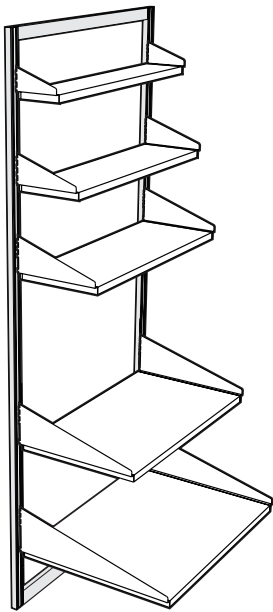

Adjustable Wall Shelf Assemblies consist of a pair of 11 gauge steel Shelf Brackets and a Shelf. The Shelf Bracket engages the inner slot of the double slotted Wall Vertical Upright and is adjustable on 1" centers. Shelves are available in Painted Steel, Oak or Maple veneer plywood, or Phenolic Resin.

Painted Steel Shelves – 1" thick, formed from 16 gauge cold rolled steel.

Oak & Maple Shelves – 1" thick hardwood plywood with matching veneer on all exposed surfaces.

Phenolic Resin – 1" thick phenolic resin.

Optional Shelf Locking Tab

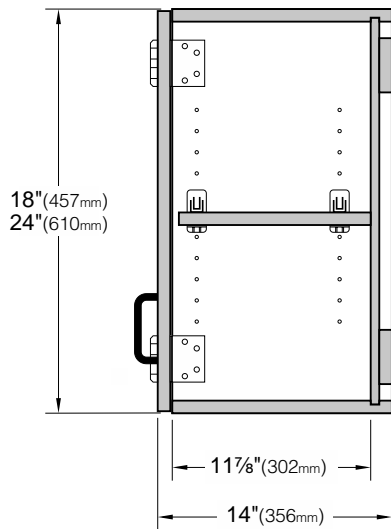

Sliding tab mounted on Shelf Bracket locks Shelf into upright to keep it from being accidentally removed.

To specify, add an **K** to the end of the Shelf Assembly part number. Example: **F21M1236-00K**
