Evolution®

Column Based Workstation

KEWAUNEE®

encouraging new discovery...*Worldwide*

EVOLUTION

Column Based Workstations

- Infinitely height adjustable worksurfaces and shelving
- Starter and add-on assemblies; single and double-sided
- Laminates, edge-grain maple, phenolic resin and Kemresin worksurfaces available
- UL listed, column mount power bars with power switch and built-in circuit breaker
- Power, data, and service fixtures mountable in columns with pre-wired and pre-piped options
- Storage options include mobile, suspended, freestanding, and overhead
- Meets SEFA 10, Adaptable Casework Systems, Class 7 (freestanding) and Class 8 (mobile) standards

Kewaunee's Evolution is a free standing workstation system that is designed to meet the changing needs of today's Laboratory and Technical environments. The column based design offers infinite height adjustment of the worksurface and shelving; as well as other column mounted accessories. Its modular design and ability to share columns helps control cost and simplifies lab layout. Three standard column heights create platforms with and without an above counter support structure. Evolution is available pre-piped and pre-wired and easily incorporates with overhead utility grids or service carriers and panels. Evolution is designed for mobile, suspended, free-standing, and overhead storage.

Evolution Workstation Part Numbers

Workstation Part Number Explanation

FV 11 M 84 24 36 - 00

System Type
FV = Evolution

Column Type
10 = Single-sided Starter 9" Column
11 = Single-sided Add-on 9" Column
20 = Double-sided Starter 9" Column
21 = Double-sided Add-on 9" Column
30 = Single-sided Starter 12" Column
31 = Single-sided Add-on 12" Column
40 = Double-sided Starter 12" Column
41 = Double-sided Add-on 12" Column

Material
M = Metal (powder coated steel & aluminum)
P = Plastic Laminate
E = ESD Plastic Laminate
R = Kemresin
T = Phenolic Resin
Work Top Materials

Column Height
Standard Heights: 36" – 54" – 84"

Work Top Depth
Standard Depths: 24" – 30" – 36"
Double-sided workstations use two work tops back-to-back
Double-sided Overall depth = Standard Depth x 2

Work Top Length
Standard Lengths: 24" - 30" - 36" - 42" - 48"
54" - 60" - 66" - 72" - 78" - 84" - 90" - 96"

Separator

Options (see below)

Workstation Options

FV 11 M 84 24 36 - 00

Accent Strip Options
0 = Plastic Laminate Accent Strip
1 = Powder Coated Steel Accent Strip

Column Foot Options
0 = 1½" Diameter Leveling Glide
1 = 4" Swivel, Locking Caster
2 = 4" Heavy Duty Leveling Caster

Load Ratings — Asembly Load Maximums

Single-sided – 9" Column Workstation

Workstation on Glides or Heavy Duty Leveling Casters: 1,200lbs
Worksurface Frame: 750lbs
(includes worksurface and suspended storage)
Workstation on Swivel Casters: 800lbs
Shelving: (each) 250lbs

Double-sided – 9" Column Workstation

Workstation on Glides or Heavy Duty Leveling Casters: 2,000lbs
Worksurface Frame:(each side)..500lbs
(includes worksurface and suspended storage)
Workstation on Swivel Casters: ... 1200lbs
Shelving: (each) 250lbs

Single-sided – 12" Column Workstation

Workstation on Glides or Heavy Duty Leveling Casters: 1,750lbs
Worksurface Frame: 1000lbs
(includes worksurface and suspended storage)
Workstation on Swivel Casters: 800lbs
Shelving: (each) 250lbs

Double-sided – 12" Column Workstation

Workstation on Glides or Heavy Duty Leveling Casters: 2,500lbs
Worksurface Frame:(each side)..600lbs
(includes worksurface and suspended storage)
Workstation on Swivel Casters: ... 1200lbs
Shelving: (each) 250lbs

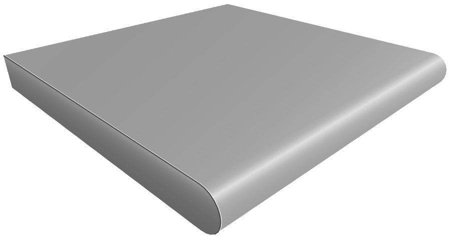
Worksurface Support Frame
contains
Modesty Panel, Support Brackets
Support Apron, and Hanging Rail
(Rear Cabinet Hanging Rail supplied on 30" and 36" deep workstations only)

Evolution Work Top Material Options

Plastic Laminate



Edge Treatment:
Full-round front edge, self-edged ends and back.

Appearance: Hard smooth surface.

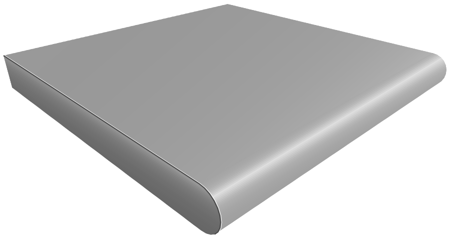
Available Colors: Almond, Dove Grey, Light Neutral, Black
Other colors available on request.

Composition: Horizontal Grade (HGP) high pressure laminate attached to 1" thick solid, M-2, particle board with water resistant advesive.

Physical Properties: Good impact and heat resistance; fair chemical resistance.

Applications: Recommended for general purpose uses.

Electrostatic Dissipative (ESD) Laminate



Edge Treatment:
Full-round front edge, self-edged ends and back.

Appearance: Hard textured surface.

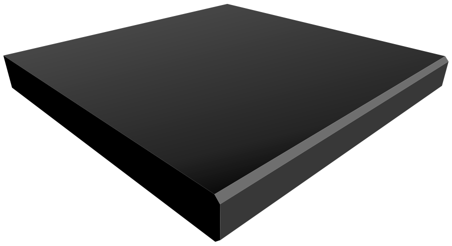
Available Colors: Almond, Dove Grey, Black
Other colors available on request.

Composition: ESD Horizontal Grade (HGP) high pressure laminate attached to 1” thick solid, M-2, particle board with water resistant advesive.

Physical Properties: Good impact and heat resistance; fair chemical resistance.

Applications: Ideally suited for a variety of electronically sensitive applications.

Kemresin®



Edge Treatment:
Chamfered front edge, finished square ends and back.

Appearance: Ultra-smooth non-porous surface.

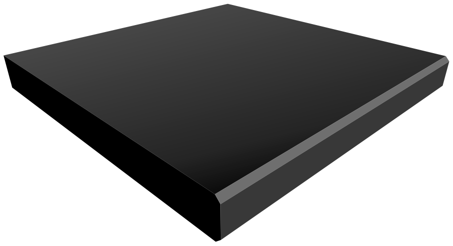
Available Colors: Black, Grey, Putty, Slate

Composition: 1” thick molded epoxy resin.

Physical Properties: Excellent resistance to practically all acids, alkalies and solvents. Highly resistant to heat and normal physical abuse.

Applications: Use wherever optimum physical and chemical resisting properties are required.

Phenolic Resin



Edge Treatment:
Chamfered front edge, finished square ends and back.

Appearance: Hard, smooth, non-glare surface

Available Colors: Black
Other colors available on request.

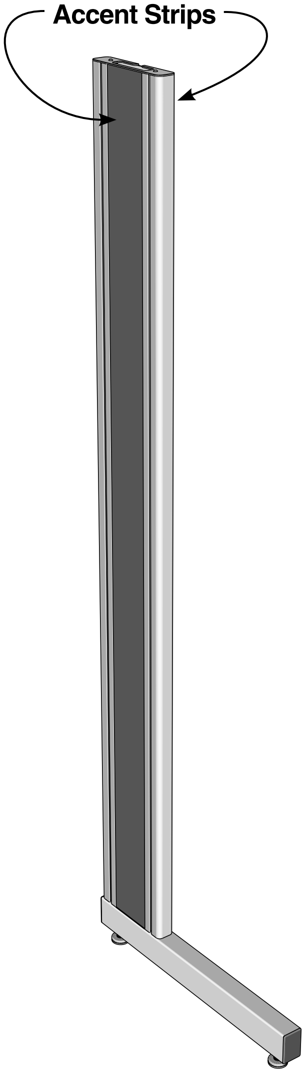
Composition: Cellulose fiber reinforced phenolic resin core with a polyurethane copolymer surface.

Physical Properties: Good chemical resistance to wide range of acids, alkalies and solvents.

Applications: Use wherever a high degree of chemical resistance is required.

Evolution Column Options

Column Accent Strip Options



Workstation Support Columns are furnished with two accent strips, one on each side of the column. Accent strips may be either Plastic Laminate or Powder Coated Steel in colors to either match or accent the Workstation color.

Plastic Laminate Accent Strip

May be used on any 9" or 12" column.

Available Colors:

Almond	Dove Gray
Black	Light Neutral
Brittany Blue	Midori

Other colors available on request.

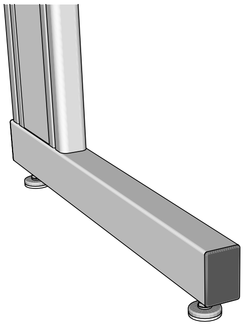
Powder Coated Steel Accent Strip

Required for columns with fittings or fixtures.

Available Colors: *All Standard Kewaunee Steel Finish Colors*

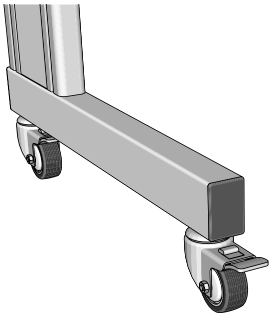
Amazon	Mountain Blue
Black	Sage
Chocolate	Sand Tan
Driftwood	Satin Grey
Force Grey	Snow White
Light Neutral	Stormy Blue
Malt	True Blue
Midori	Wineberry

Column Foot Options



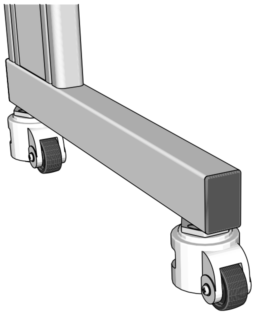
1½" Diameter Glide

Overall Height:	1"
Load Rating:	500lbs each



Swivel Locking Caster

Overall Height:	4"
Load Rating:	200lbs each



Heavy Duty Leveling Caster

Overall Height:	4"
Load Rating:	500lbs each

Single-sided – 9" Column Modules

Single-sided 9" Column Modules are available in three heights; 36", 54", and 84", three depths; 24", 30" and 36", and in lengths as shown — in both starter assemblies and add-on assemblies. Starter assemblies consist of two columns, a worksurface support frame, and all required hardware. Add-on assemblies consist of one column, a worksurface support frame, and all required hardware. Workstation modules ship knocked-down for assembly in the field.

Work Tops must be specified separately. (see page 14)

Double-sided – 9" Column Modules

Module Options:
The two final digits in the part numbers specifies the Accent Panel Material option and the Foot option for the workstation.

Accent Strip Material Options:
0 = Plastic Laminate Panel
1 = Powder Coated Steel Panel

Column Foot Options:
0 = $1^1/_2$" Leveling Glide
1 = 4" Caster
2 = 4" Heavy Duty Leveling Caster

Example: FV20M364824-**12** = with Steel Accent Strip and HD Caster

Single-sided – 12" Column Modules

Single-sided 12" Column Modules are available in three heights; 36", 54", and 84", three depths; 24", 30" and 36", and in lengths as shown — in both starter assemblies and add-on assemblies. Starter assemblies consist of two columns, a worksurface support frame, and all required hardware. Add-on assemblies consist of one column, a worksurface support frame, and all required hardware. Workstation modules ship knocked-down for assembly in the field.

Work Tops must be specified separately. (see page 15)

Double-sided – 12" Column Modules

Double-sided 12" Column Workstations are available in three heights; 36", 54", and 84", three depths; 48", 60" and 72", and in lengths as shown — in both starter assemblies and add-on assemblies. Starter assemblies consist of two columns, two worksurface support frames, and all required hardware. Add-on assemblies consist of one column, two worksurface support frames, and all required hardware. Workstation modules ship knocked-down for assembly in the field.

Work Tops must be specified separately. (see page 15)

Double-sided – 12" Column Modules

Workstation Options:
The two final digits in the part numbers specifies the Accent Panel Material option and the Foot option for the workstation.

Accent Panel Material Options:
0 = Plastic Laminate Panel
1 = Powder Coated Steel Panel

Workstation Foot Options:
0 = 1$^1/_2$" Leveling Glide
1 = 4" Caster
2 = 4" Heavy Duty Leveling Caster

Example: FV40M364824-**11** = with Steel Accent Strip and 4" Caster

Work Tops

Work Tops are available in four materials, 1" thick and with or without an extra 1" of length on either the left, right, or both ends to extend the length of the top to be even with the outside of the column. See page 4 for available color options.

Work Top Material Codes:

P = Plastic Laminate
R = Kemresin
E = ESD Laminate
T = Phenolic Resin

Example: FV90**P**013060-00
Standard length Plastic Laminate top

Extended Length Option:

0 = Standard Length
L = Extended on Left End
R = Extended on Right End
B = Extended on Both Ends

Example: FV91P016060-0**B**
Work top extended both ends

Corner Modules – 9" Column

Evolution Corner Modules are designed to be added to two starter workstation modules to create an "L" shaped assembly. They are available in two different configurations; square or diagonal and in three depths; 24", 30", and 36" to match workstation depths.

Square Corner Support Frames include: two support brackets, and an adustable height rear corner support leg.

Diagonal Corner Support Frames include: two support brackets, a front apron, two modesty panels, and an adjustable height rear corner support leg.

Work Tops must be specified separately.

Work Tops are available in four materials and with or without an extra 1" of length on either the left or right ends to extend the length of the top to be even with the outside of the column. See page 4 for available color options.

Work Top Material Codes:

P = Plastic Laminate
R = Kemresin
E = ESD Laminate
T = Phenolic Resin

Example: FV14**P**013032-00
Standard length Plastic Laminate top

Extended Length Option:

0 = Standard Length
L = Extended on Left End
R = Extended on Right End

Example: FV15T013046-0**R**
Phenolic Resin work top extended right end

Worksurface Frames

Worksurface Frames may be used between two stand-alone workstations to create a multi-module assembly.

Each frame assembly consists of two worksurface support brackets, a front worksurface support apron, a modesty panel and all hardware required for assembly.

30" and 36" deep frames also include a rear cabinet hanging rail.

Work Tops are not included and must be specified seperately.

Columns

Columns are available individually for replacement purposes and custom applications.

The two final digits in the part number specifies the Accent Strip Material option and the Foot option for the column.

Accent Strip Material Options:

0 = Plastic Laminate Panel
1 = Powder Coated Steel Panel

Workstation Foot Options:

0 = 1$^1/_2$” Leveling Glide
1 = 4" Caster
2 = 4" Heavy Duty Leveling Caster

Example: FV01M36301-**11** = with Steel Accent Panel and 4" Caster

Evolution Shelving

Shelf Assembly Part Number Explanation

FV 60 M 03 15 36 - 00

System Type

FV = Evolution

Shelf Type

57 = Universal – Single-sided Undermount
58 = Universal – Single-sided Bookend
59 = Universal – Double-sided Undermount
60 = 9" Column – Single-sided Undermount
61 = 12" Column – Single-sided Undermount
62 = 9" Column – Single-sided Bookend
63 = 12" Column – Single-sided Bookend
64 = 9" Column – Double-sided Bookend
65 = 12" Column – Double-sided Bookend
66 = 9" Column – Center Undermount
67 = 12" Column – Center Undermount

Shelf Material

M = Powder Coated Steel

Options (see below)

Separator

Shelf Length

Standard Lengths: 24" - 30" - 36" - 42" - 48"
54" - 60" - 66" - 72" - 78" - 84" - 90" - 96"

Shelf Depth

Standard Depths: 12" – 15" – 18" – 24"

Center Undermount Shelving

Standard Depths: 12" – 15" – 18" – 24" – 30" – 36"

Shelf Bracket Height

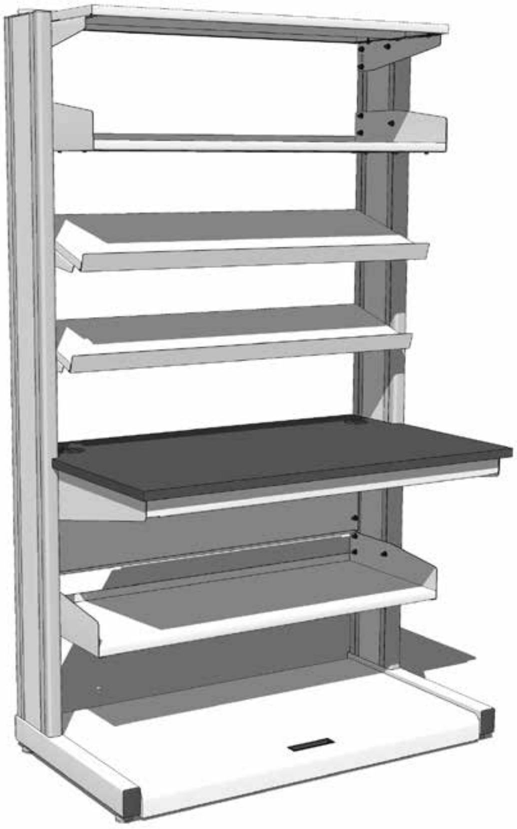
Standard Heights: 2" – 3" – 5"

Shelf Options

FV 60 M 03 15 36 - **00**

Shelf Lip Option

00 = No Shelf Lips
01 = One Shelf Lip
02 = Two Shelf Lips (front & back)
03 = Three Shelf Lips (for FV66 Center Shelving only)



Single-sided Shelving for 9" Column

Single-sided Undermount Shelves consist of a pair of powder coated, 12 gauge steel shelf brackets and a 1" thick, powder coated, 14 gauge steel shelf. Shelves are infinitely height adjustable from above the worksurface to the top of the column and have limited mounting below worksurface. Shelves mount flush with the rear of workstation columns and are available with or without retaining lips.

Shelf Retaining Lip Options:

00 = No shelf lip
01 = Shelf Lip on one edge
02 = Shelf Lip on both edges

Example: FV57M031236-**01**
= Shelf with Lip on one edge

Single-sided Shelving for 9" Column

Single-sided Bookend Shelves consist of a pair of powder coated, 5" high, 12 gauge steel shelf brackets and a 1" thick, powder coated, 14 gauge steel shelf. Shelves are infinitely height adjustable from above the worksurface to the top of the column and have limited mounting below worksurface. Shelves mount flush with the rear of workstation columns and are available with or without retaining lips.

Shelf Retaining Lip Options:

00 = No shelf lip
01 = Shelf Lip on one edge
02 = Shelf Lip on both edges

Example: FV58M051536-**00**
= Shelf without Retaining Lips

Double-sided Shelving for 12" Column

Double-sided Undermount Shelves consist of a pair of powder coated, 12 gauge steel shelf brackets and a 1" thick, powder coated, 14 gauge steel shelf. Shelves are infinitely height adjustable from above the worksurface to the top of the column and have limited mounting below the worksurface. The rear edge of the shelf is centered on the workstation column. Double-sided undermount shelves are available with or without retaining lips and may be used on either 9" or 12" column workstations.

Shelf Retaining Lip Options:

00 = No shelf lip
01 = Shelf Lip on one edge
02 = Shelf Lip on both edges

Example: FV59M031236-**01**
= Shelf with Lip on one edge

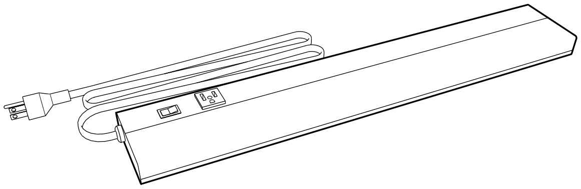
Lighting

Fluorescent Task Lighting consists of a thin-profile, specification grade, white, painted steel housing, 1" high by 3½" deep. It is UL listed and furnished with rocker switch, single outlet, lamp, and six foot cord.

LED Task Lighting consists of a thin-profile, white, LED strip, 9.5mm high by 33mm deep with a touch dimmer switch. It is UL listed and furnished with 120 VAC to 24 VDC power supply with ten foot power cord. The light includes a magnetic mounting strip for mounting to steel shelving and integral tabs for mounting to wood and plastic laminate.

Fluorescent Task Lighting



Part Number	Nominal Length	Actual Length	Fits Under

Accessories

Power Bars are available with either 15 or 20 amp receptacles, include an On/Off switch with built in circuit breaker, and a 10 foot power cord with either a straight blade or twist-lock plug. They are column mounted and infinitely height adjustable from the worksurface to the top of the column with limited mounting ability below worksurface. Power bars are fabricated from powder coated, cold rolled steel, include all mounting hardware, and are UL Listed.

Power Cord Plug Option:

1 = Straight Blade (NEMA 5-15/5-20)
2 = Twist-lock (NEMA L5-15/L5-20)

Example: FV50M030336-12

Accessories

Fabric Covered Tack Panels include a powder coated steel support frame, a fabric covered panel, and mounting hardware. Tack panels are column mounted and infinitely height adjustable from above the worksurface to the top of the column. When used in conjunction with shelving, tack panel must be mounted above the shelf or below the shelf brackets.

Contact your your local Kewaunee sales representative for available colors.

Accessories

Bin Bars are 12 gauge steel with a channel formation for added rigidity. Column mounted, infinitely height adjustable from above the worksurface to the top of the column, bin bar mounting brackets incorporate three depth adjustment slots. Bin Bars are available in either powder coated steel, or stainless steel. Stainless Steel Bin Bars are designed for ESD applications and include a grounding kit. Both include required mounting hardware.

Accessories

Top of Column Horizontal Chases are designed to mount flush with the top of the column and can accommodate wiring, conduit, and piping. They provide a convenient chase for stand-alone benches or a continuous chase through the columns for interconnected applications. Made of powder coated steel, they include a removable top cover and all required mounting hardware.

Service Fittings & Fixtures

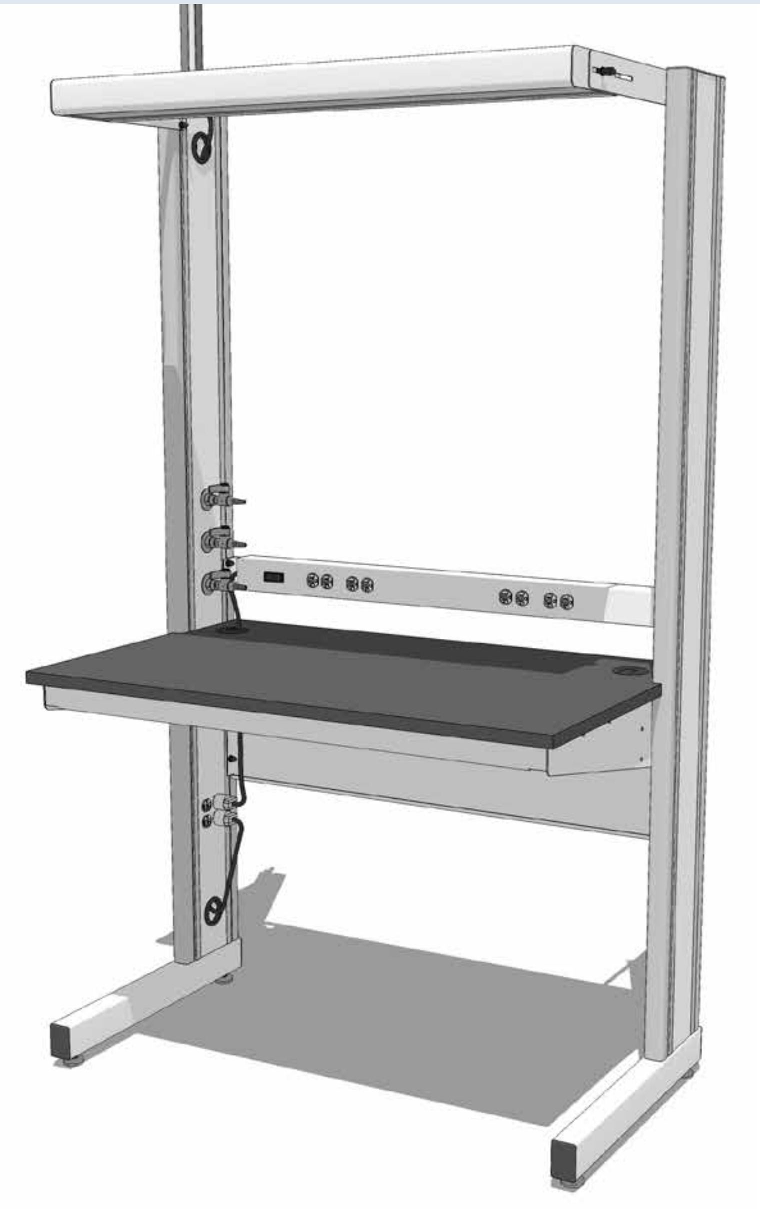
Features:

Service Fittings

- May be mounted on columns with powder coated steel accent strips only
- Vertical columns accept up to three fittings
- Fittings pre-plumbed to hoses for connection to overhead service panels and chases
- Keyed quick-connect fittings to ease service connection and disconnection during bench relocation

Electrical and Data Fixtures

- May be mounted on columns with powder coated steel accent strips only
- May be pre-wired to top or bottom of column
- All cataloged components UL listed
- Columns are certificed to UL standard 61010-1 when pre-wired with cataloged fixtures



Service Fittings

Internal Service Hoses are required to mount services on the workstation columns. They are factory installed when ordered with the service fitting and are available in either reinforced PVC or braided stainless steel. The ⅜" hoses are furnished with a ⅜" IPS female outlet and either a ⅜" IPS female inlet or ⅜" IPS male quick-connect inlet.

Hoses are available in multiple lengths from 3 feet to 8 feet above the top of an 84" column and in 9 colors to match quick-connect color codes.

Specify hose color by placing color code at end of hose part number.
Example: W-6132E36-**02** for Orange hose with female inlet

Specify hose color and quick-connect key by placing color code and key number at end of hose part number.
Example: W-6135E36-**01**-**K4** for Black hose with Yellow Vacuum quick-connect

Service fittings require columns with steel accent strips.

Service Fittings

Ball Valves are chrome plated brass and provide on/off control of gas, air, or vacuum at pressures up to 75 PSI.

Needle Point Cocks are chrome plated brass with a brass floating cone and integral brass seat. They provide metering control of laboratory gases at pressures up to 60 PSI.

Service fittings require columns with steel accent strips.

Electric/Data Fixtures & Accessories

Electrical Fixtures may be mounted in the workstation columns as either a single device, or double device configuration. Part numbers shown include the device, the required cutout and hardware, and installation. Electrical devices include pre-wiring when a power cord is specified. Location of devices must be specified.

RJ45—8P8C Data/Com Outlets are available in either Cat-6 or Cat-6a configurations. Part numbers shown include the device, the required cutout and hardware, and installation. They do not include wiring.

Electric/Data Fixtures require columns with steel accent strips.

Electric/Data Fixtures & Accessories

Power Cords are required to carry power from the electrical devices to wall outlets or overhead service panels. The SJ 12/3 and SJ 12/4 cords are available in multiple lengths measured from the top of 84" high columns. Standard exit point is the top of the column, but they may be routed to the bottom when specified.

Cord Access Ports are designed to route power and data cords from the interior of the column through the column accent strip, but may be used as pass-thru ports when workstations are set in a continuous run. Ports are a 2$^1/_2$" diameter hole fitted with a rubber grommet creating a 2$^1/_8$" diameter access. Location of ports must be specified.

Steel & Wood Cabinets

Features:

Steel Base Cabinets

- Electrostatically applied, chemical resistant, powder coat finish available in colors to compliment any laboratory environment
- Heavy gauge formed and welded steel cabinet body construction provides strength and durability
- One piece drawer body, radiused all four sides
- Furnished standard with full-extension, soft-close drawer slides
- One-piece case bottom and horizontal front rail
- Furnished standard with finished back
- Exclusive positive door catch option
- Five-knuckle, semi-concealed, and concealed hinges available

Wood Base Cabinets

- Multiple coat, chemical resistant finish system formulated to highlight the natural grain patterns
- Dovetailed drawer construction with nine-ply hardwood plywood drawer sides
- 3/4" seven-ply hardwood plywood end panels, bottom and shelf, with solid hardwood facing
- Full extention, ball bearing, 100 lb. load rated, drawer slides, standard on all drawers and pullboards.
- 3/4" seven-ply hardwood plywood finished back dadoed into end panels and bottom
- Institutional type five-knuckle offset door hinges rated for 150 pound loads

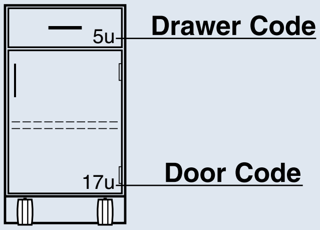
Base Cabinet Information



Base cabinets are designed on a “unit” system to allow maximum flexibility in the selection of drawer and/or cupboard door sizes. The charts below show both the actual height as well as the “unit” height of both Steel and Wood Base Cabinets

The adjacent tables indicate the “unit” height, actual height and inside clearance dimensions of the base cabinets drawers and cupboards. Simply match the “unit” code shown on the cabinet to the appropriate code in the tables.

Steel Cabinet Dimensions

Descriptive Height	Dimensional Height	Unit Height
Standing Mobile	33"	54 units
Sitting Mobile	26¼"	42 units
25" High Suspended	25⅛"	48 units
19" High Suspended	19⅜"	36 units

Wood Cabinet Dimensions

Descriptive Height	Dimensional Height	Unit Height

Add-A-Drawer Mobile Cabinets

Specifications:

Add-A-Drawer Mobile Cabinets allow the removal of the top drawer assembly to convert the cabinet from standing height to sitting height. The base section of the add-a-drawer cabinet is 26¾" high, the add-on drawer 6¼", for an overall height of 33".

All add-a-drawer mobile cabinets have finished backs and counter-weights. The M95 four-drawer cabinet incorporates a drawer interlock system on the bottom three drawers.

The cabinets are a nominal 22" deep with lengths as shown. They are designed to fit under 30" and 36" high worksurface frames.

Cupboards have one adjustable shelf.

Tops of both the base section and the add-on drawer are finished to match the cabinet.

Note: Last four digits of part number designates door and drawer head style, hinge, hardwood species, and pull selection. See page 42 for full explanation. Actual product may vary slightly from catalog illustration due to style and hardware selection.

Tops may be added but are not required for a finished cabinet.

When desired, tops must be ordered separately. *(see page 55)*

Mobile Cabinet Tops & Accessories

Specifications:

1" Thick Mobile Cabinet Tops are available in three depths, 22",23", or 24" and may be used on either Wood or Steel Mobile Cabinets. All edges are finished.

Steel Mobile Cabinet Tops are fabricated from 18 gauge steel and finished to match the cabinet. They are designed for steel mobile cabinets only and add less than 1/4" to the overall height of the cabinet.

Mobile Cabinet Grab Bar allows easier movement and relocation of mobile cabinets. Fabricated from powder coated steel or stainless steel, they may be used on either steel or wood mobile cabinets, with or without tops.

Bars must be attached in field with supplied screws and/or bolts.

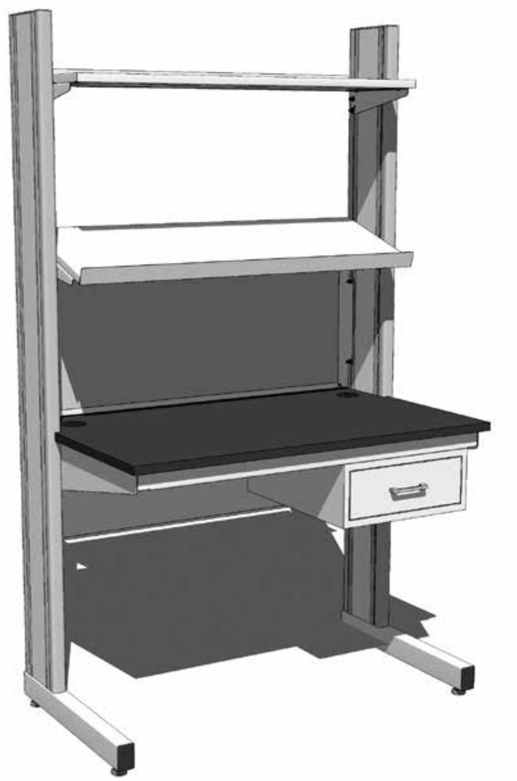
Steel Suspended Drawer Units



Steel Suspended Drawer Units are designed to hang beneath 30" or 36" deep module frames. They are available in steel construction only and are furnished complete with all required mounting hardware.

Steel Suspended Drawer Units may be stacked to create multiple drawer unit assemblies.

Note: Last four digits of part number designates drawer head style and pull selection. See page 48 for full explanation. Actual product may vary slightly from catalog illustration due to style and hardware selection.

Upper Storage Cabinets

Upper Storage Cabinets are used in place of open shelving when enclosed storage and/or resistance to dust is required. Cabinets are available in powder coated steel or hardwood veneer plywood construction, and in a variety of door styles. All Evolution upper cabinets are 30” high and include two adjustable shelves. Double-sided cabinets use two single-sided cabinets mounted back-to-back on a single support assembly. Cabinets mount between columns and include support assembly and mounting hardware.

Note: Last four digits of part number designates cabinet/door style and hardward selection. See page 48 for full explanation. Actual product may vary slightly from catalog illustration due to style and hardware selection.

Upper Storage Cabinets

Upper Storage Cabinets are used in place of open shelving when enclosed storage and/or resistance to dust is required. Cabinets are available in powder coated steel or hardwood veneer plywood construction, and in a variety of door styles. All Evolution upper cabinets are 30" high and include two adjustable shelves. Double-sided cabinets use two single-sided cabinets mounted back-to-back on a single support assembly. Cabinets mount between columns and include support assembly and mounting hardware.

Note: Last four digits of part number designates cabinet/door style and hardward selection. See page 48 for full explanation. Actual product may vary slightly from catalog illustration due to style and hardware selection.

Upper Storage Cabinets

Upper Storage Cabinets are used in place of open shelving when enclosed storage and/or resistance to dust is required. Cabinets are available in powder coated steel or hardwood veneer plywood construction, and in a variety of door styles. All Evolution upper cabinets are 30" high and include two adjustable shelves. Double-sided cabinets use two single-sided cabinets mounted back-to-back on a single support assembly. Cabinets mount between columns and include support assembly and mounting hardware.

Note: Last four digits of part number designates cabinet/door style and hardware selection. See page 48 for full explanation. Actual product may vary slightly from catalog illustration due to style and hardware selection.

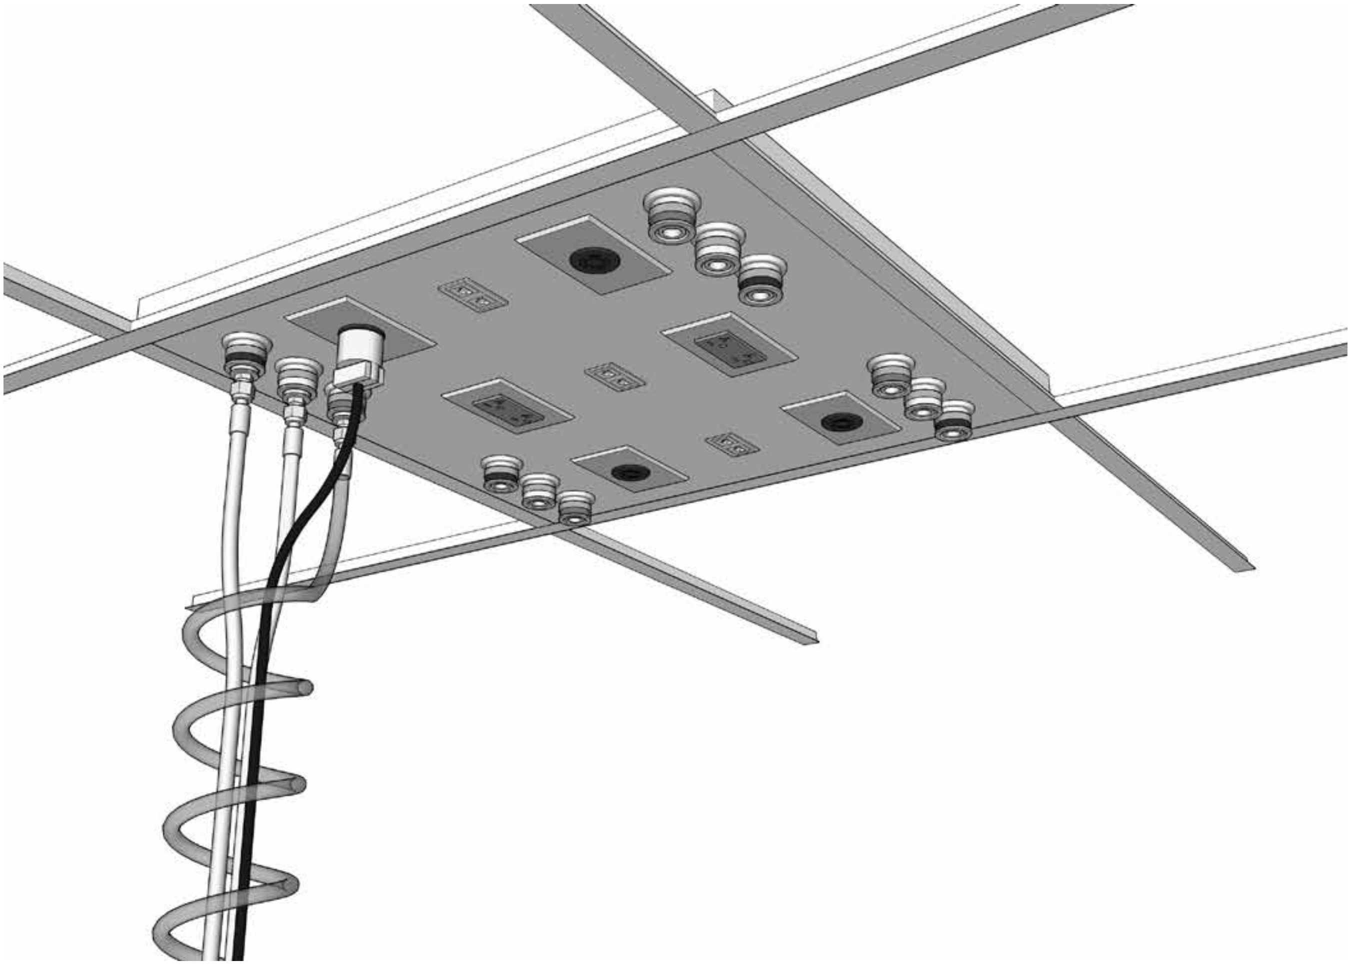
Ceiling Service Panel

Features:

- Designed to integrate into common ceiling grids for delivering plumbing, electrical, and data services to the lab bench
- Fits in standard 2' x 2' and 2' x 4' ceiling grids
- Electrical devices are UL listed.
- Available in all standard powder coat finish colors
- May be customized to meet your project requirements
- Accommodates multiple lab services including:
  - Common gases, air, vacuum, and water
  - High purity and special gases
  - Power and data
- Accepts multiple fitting options including:
  - Standard or fine control valves
  - Pressure gauges and regulators
  - Quick-connect fittings
  - Communication and data outlets
  - Electrical service outlets

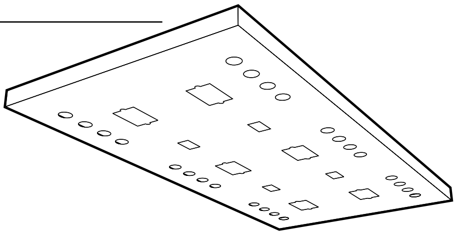


Ceiling Service Panel

Typical Ceiling Panel Layouts

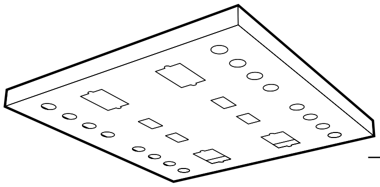
Six Station – 2' x 4' panel

Six groups of 4 service cutouts
Six power receptacle cutouts
Four data outlet cutouts



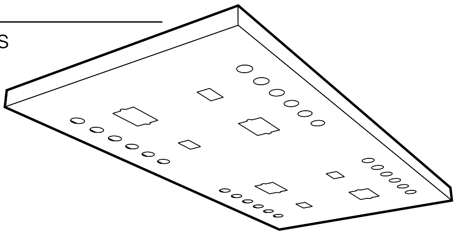
Four Station – 2' x 2' panel

Four groups of 4 service cutouts
Four power receptacle cutouts
Four data outlet cutouts



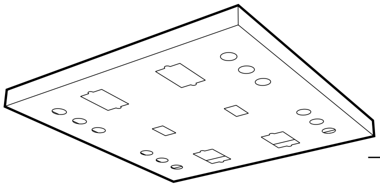
Four Station – 2' x 4' panel

Four groups of 6 service cutouts
Four power receptacle cutouts
Four data outlet cutouts



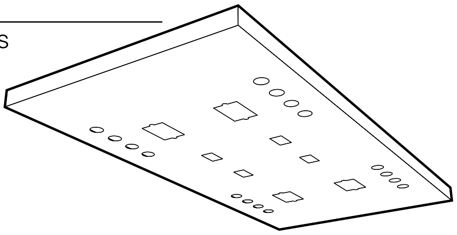
Four Station – 2' x 2' panel

Four groups of 3 service cutouts
Four power receptacle cutouts
Two data outlet cutouts



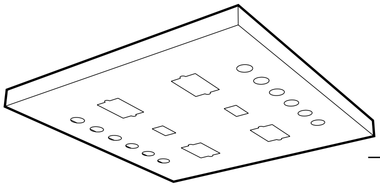
Four Station – 2' x 4' panel

Four groups of 4 service cutouts
Four power receptacle cutouts
Four data outlet cutouts



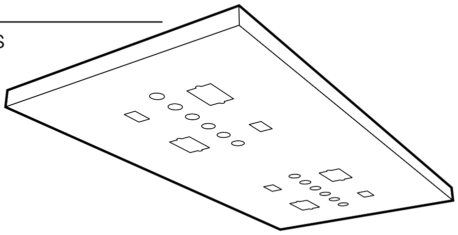
Two Station – 2' x 2' panel

Two groups of 6 service cutouts
Four power receptacle cutouts
Two data outlet cutouts



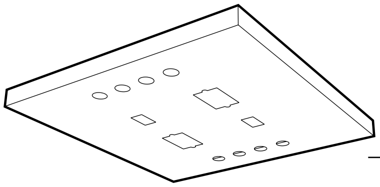
Two Station – 2' x 4' panel

Two groups of 6 service cutouts
Four power receptacle cutouts
Four data outlet cutouts



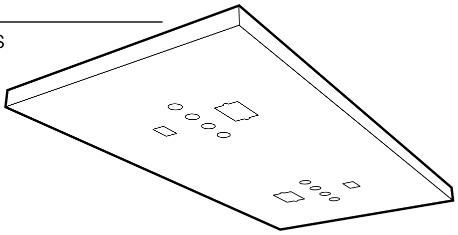
Two Station – 2' x 2' panel

Two groups of 4 service cutouts
Two power receptacle cutouts
Two data outlet cutouts



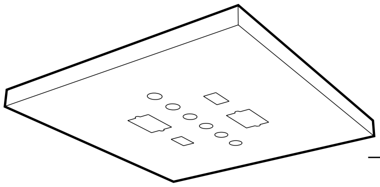
Two Station – 2' x 4' panel

Two groups of 4 service cutouts
Two power receptacle cutouts
Two data outlet cutouts



One Station – 2' x 2' panel

One group of 6 service cutouts
One power receptacle cutout
One data outlet cutout



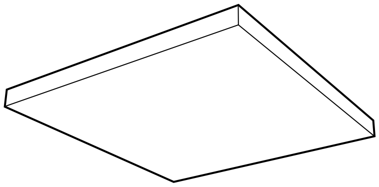
Ceiling Service Panel Accessories

Ceiling Service Panels are fabricated from powder coat 12 gauge steel in two sizes to fit standard ceiling grid. They can be punched to accept most electrical, data, or service fittings. **Fittings and Fixtures must be ordered separately**

Electrical Fixtures are furnished complete with device, box and cover plate and are supplied loose, uninstalled.

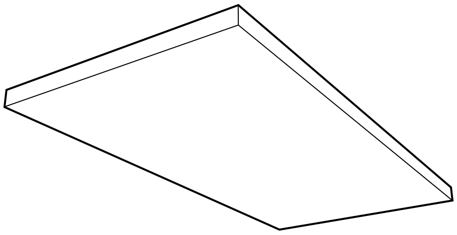
Power Cords are required to carry power from the overhead service carriers to the support frame. The SJ 12/3 and SJ 12/4 cords are available in various configurations.

24" x 24" Ceiling Service Panel



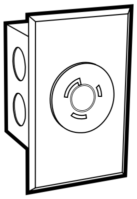
Part Number	Dimensions (HxDxL)
SC10M022424-00	1½" x 24" x 24"

24" x 48" Ceiling Service Panel



Part Number	Dimensions (HxDxL)
SC10M022448-00	1½" x 24" x 48"

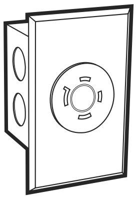
Electrical Fixtures



Twist-lock
Single-circuit 20 amp

0620-1K	Black

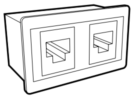
NEMA L5-20 3-wire, specification grade, 120 VAC, 20 amp, single receptacle.



Dual-circuit
Twist-lock 20 amp

0624-1K	Black

NEMA L14-20 4-wire, specification grade receptacle. Capable of carrying two 120 VAC, 20 amp circuits.
Note: Check local electrical codes for compliance.



RJ45 8P8C
Data/Comm Outlet

0720-0K-6	Cat-6	Black
0720-0V-6	Cat-6	Ivory
0720-0K-6a	Cat-6a	Black
0720-0V-6a	Cat-6a	Ivory

(2) RJ45 8P8C Outlets
Fits in 1¼" x 2" cutout.

Power Cords

Ceiling Service Panel Accessories

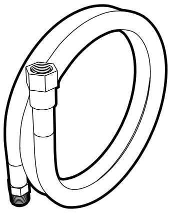
Service Hoses are required to carry services from overhead service panel to the workstation column. They are available in reinforced PVC, polyurethane, or braided stainless steel. PVC hoses are available in 9 colors to match quick-connect color codes.

Specifiy PVC hose color by placing color code at end of hose part number.

Example: W-1133-36-**02** for Orange hose

Keyed Quick-Connect Fittings are available for Hoses to ease service connection and disconnection during bench relocation. They are available in eight sizes (keys) which keeps service outlets from being connected to the wrong service.

Extension Service Hoses



Reinforced PVC Hose

for Non-burning Gases
3/8" IPS Female Inlet
3/8" IPS Male Outlet

Length	Part Number
36"	**W-1133-36-0_**
48"	**W-1133-48-0_**
60"	**W-1133-60-0_**
72"	**W-1133-72-0_**
96"	**W-1133-96-0_**

Braided Stainless Steel Hose

for Natural & Reactive Gases
3/8" IPS Female Inlet
3/8" IPS Male Outlet

Length	Part Number
36"	**W-1233-36-00**
48"	**W-1233-48-00**

# OF FINDINGS

Kewaunee Scientific Corporation is dedicated to manufacturing high quality products for the laboratory marketplace. We offer **Total Laboratory Solutions, Innovative Designs, and Technological Expertise** with a worldwide distribution network to provide laboratories that are truly World Class.

Laboratory Products from Kewaunee®:

ALPHA® – Adaptable Casework System
ALPHA Columns – Expandable Workstations
ALPHA Overhead Carrier Systems
BasikBench® – Welded C-Leg Bench
DetectAir – Filtered/Ductless Fume Hoods
EarthLine® – Environmentally Friendly Casework
Enterprise® – Moveable Workstations
Evolution® – Column Based Workstations
Interceptor® – Biological Safety Cabinet
Interceptor® – Laminar Flow Cabinet
Kemresin® – Epoxy Resin Counters & Sinks
Kewaunee Matrix® – Educational Stations
Research Collection® – Steel Casework
Signature® Series – Wood Casework
Spektrum – Laminate Architectural Millwork
Sturdilite® – Flexible Pedestal System
Supreme Air® – Fume Hoods

For our complete product offering, specifications, catalogs, brochures, case studies, and dealer list, go to www.kewaunee.com, or contact your local sales representative directly.
